Mt. Clemens, MI 48043

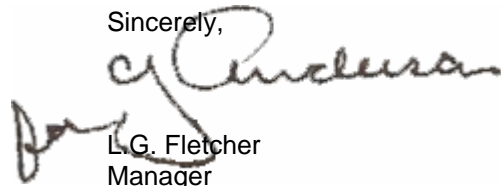

14 May 2003

Mr. Gary Kimmen,

On January 2003, a representative of General Dynamics Product Design Quality Assurance toured your facility in performance of a survey to verify that your inspection system satisfies G.D.L.S. contractual requirements. As a result of that survey, your inspection system has been found to adequately address G.D.L.S. quality objectives.

Therefore, we are pleased to inform you that your company has been added to our roster of approved suppliers. Should any significant changes be made to your current inspection system they should be brought to the attention of our Product Design Quality Assurance Department at the above address. Please include "Mail Zone 436-10-26" in the address of any correspondence of that nature.

Sincerely,

L.G. Fletcher  
Manager  
Product Design Quality Assurance
